VPN Connection (Mac OSX)

Verify there is an active internet connection. Open a browser (Safari) and navigate to a few websites.

Connect to the UTHSCSA VPN via:

https://hscvpn.uthscsa.edu

Log in using a valid UTHSCSA Username and Password

Follow the instructions

Accept/Allow any installation agreements. Some dialogue boxes will appear more than once. Select “always” whenever possible.

NOTE: The UTHSCSA VPN requires Java. If it is not working properly, try checking for updates by clicking on the Apple drop menu and selecting “Software Update”.

9-2-2011
When the connection has been established the “Network Connect” window and Dock Icon should be displayed.

A successful connection will load a page with **Use Instruction**, **Log-Out Instructions**, and an **Acceptable Use** statement.
