VPN Connection (Windows)

1. Verify there is an active Internet connection.
2. Open a browser such as Internet Explorer.
3. Connect to the UTHSCSA VPN via: https://hscvpn.uthscsa.edu
4. Login using a valid UTHSCSA Username and Password
5. Click Start to install the VPN software (Junos Pulse)
6. Select Run, Allow, or Yes when prompted.

7. A successful connection will load a page with Use Instruction, Log-Out Instructions, and an Acceptable Use statement.
8. In the System Tray (lower right corner) will be an icon for Junos Pulse.

9. If you hover your mouse over the icon it will show “No active connection” and is greyed out.

10. To start a connection click the Junos Pulse icon and click connect.
11. Enter UTHSCSA User Name and Password
